**STORMCHASER TECHNOLOGIES ANNOUNCES THE RELEASE
OF STORMTRACKER V4.1 BACKTESTING**

Austin, TX – September 20, 2005 – Stormchaser Technologies, Inc. is pleased to announce that they have released its Backtesting application. Stormchaser Technologies is an automated Trading Systems Solutions Provider for Active Traders, Broker Dealers and Hedge Funds. Stormchaser's highly efficient and user-friendly software systems markedly enhance the accuracy, data handling and timely execution response capabilities, and hence significantly improve the efficiency and boost the profitability of day trading by historically backtesting your Algorithms before you trade.

Stormtracker V4.1 Backtesting capability includes:

- ✿ Any algorithm configured in the Black Box can be historically Backtested for profitability
- ✿ Instant implementation to a real-time trading system
- ✿ Easy report generation
- ✿ Compare back tested strategies
- ✿ Multiple time frames

Additional Stormtracker V4.1 includes:

- ✿ A Real-Time Configurable Scanner that can monitor thousands of symbols in real-time, and can generate alerts using the algorithms configured by the user or using a predefined trading system.
- ✿ Black Box Execution Platform is integrated with the Scanner. Symbols generated by the Scanner are automatically sent to the execution platform. Stormtracker V4.1 is integrated with Interactive Brokers Trader Workstation for real-time automatic executions.

You can download a **FREE 7-day trial** of Stormtracker V4.1 by visiting www.stormchasertech.com. For a limited time purchasers of the stormtracker scanner get the first 6 months for only \$40/month. Purchasers of the Scanner, Backtesting and Execution Platform pay only \$100/month for the first 6 months.
